About

I'm a developer working to specialize in the frontend field with experience in UI development. I'm involved in projects that improve user experience and develop new features at Jotform.

I have created my own websites and developed systems that generate passive income. My problem-solving skills and project management abilities allow me to contribute effectively to team projects. I aim to develop software that reaches a wide audience and gain more experience in this field.

Work Experiences

Jotform   21.08.2023 - Present

Junior UI Developer

I work on the Product team. Our main focus is to ensure smooth user experiences and continuously improve our products by enhancing existing features and adding new ones. I also worked on the Growth team. I develop and improve our international web pages.

React   Redux   HTML   CSS/SCSS   JavaScript   Styled Components   Figma for dev

Jotform   01.11.2022 - 03.07.2023

UI Developer (Part Time)

Using HTML, CSS, JavaScript, and React, I helped identify and fix issues in Jotform products, improving the user experience.

HTML   CSS/SCSS   JavaScript   React

Jotform   01.08.2022 - 26.08.2022

UI Developer Intern

I developed several web projects using HTML, CSS, JavaScript, and React.

HTML   CSS   JavaScript   React

Gali Medya   02.08.2021 - 10.09.2021

Web Developer (voluntary)

During my voluntary internship, I created corporate websites using WordPress and made CSS modifications to improve the themes.

Wordpress   HTML   CSS   JavaScript   PHP

### Freelancer   Since university - Still
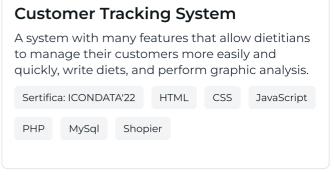

Freelance Full Stack Developer

I developed many corporate websites using HTML, CSS, JavaScript, PHP, and MySQL, generating income from these projects. I improved my project management and communication skills.
HTML   CSS   JavaScript   PHP   MySql   Tailwind   Bootstrap
